

Bonded core technology in a high-performance factory load.

Hornady's Custom InterBond™ rifle ammunition takes one of the finest bullets ever made and brings it together with carefully selected brass, primers and powder to create an extremely effective hunting cartridge. Our InterBond™ bullet has quickly become the standard by which all others are measured for effectiveness, penetration and weight retention.

Jason Stewart took this beautiful Whitetail using our 270 Winchester 130 gr SST ammo. Jason writes, "Thanks! They worked great!" You're welcome, Jason.

Jim McConville took this very nice Eland bull during an African hunt. Jim was using Hornady's Custom Ammo 30-06 SPRG with a 180 gr SP InterLock bullet.

InterBond™ is a trademark of Hornady Manufacturing Co.

Hornady's Custom SST™ Rifle Ammunition brings the performance of handloads to a factory cartridge.

Hornady Custom SST™ rifle ammunition combines the highest quality brass, primers and powders with our Super Shock Tip™ (SST) bullet to deliver peak performance from a factory load. The SST™ bullet features a polymer tip that reduces drag, improves aerodynamics and delivers a high ballistic coefficient for flat trajectories. Upon impact, the tip initiates expansion for wide, deep wound channels and sure kills.
