

300

WHISPER[®]

SSSHHH – HORNADY[®] IS LOADING THE 300 WHISPER.[®]

Originally developed and pioneered by J.D. Jones of SSK Industries, the 300 Whisper[®] is a highly efficient cartridge based on the 221 Remington case necked up to .308. Renowned as a subsonic cartridge for use with suppressed guns, the 300 Whisper[®] from Hornady[®] is available in both supersonic and subsonic loads. Compatible with guns chambered for the 300 AAC Blackout, the 300 Whisper[®] from Hornady[®] is a reliable performer with or without a suppressor and brings a new level of flexibility to the AR-15 platform.

- Subsonic load @ 1020 fps - 16" Bbl
- Loaded with the 208 gr A-MAX[®]
- Extremely efficient load
- Tactical offering when silence is necessary
- Supersonic load @ 2375 fps - 16" Bbl
