

# A **SOLID** OPTION FOR YOUR LEVER GUN.

## MONOFLEX™

The legacy of the levergun opens a new chapter with the NEW MonoFlex™ bullet available in LEVERevolution® ammunition, and as a component bullet for reloaders.

The combined technologies of GMX® and FTX® fused to produce the MonoFlex™ bullet; an Accurate. Deadly. Dependable. NEW choice for lever gun hunters.

Constructed of gilding metal, MonoFlex™ bullets won't ever separate, and when recovered, retain 95+% of their original weight. This new monolithic solid bullet features the patented Hornady® Flex Tip® design, that enables bullet expansion across a wide velocity range for truly devastating terminal results you can always count on.

### AVAILABLE IN:

30-30 140 gr

308 Mar Exp 140 gr

45/70 250 gr

- Monolithic solid bullet that provides 95+% weight retention.
- Extremely accurate high ballistic coefficient hunting bullet.
- Controlled expansion across a wide velocity range.

**MONOFLEX™ - A SOLID NEW CHOICE FOR LEVER GUN HUNTERS!**
