New Zip
Spindle™

- The new Zip Spindle™ design on our Custom-Grade Dies eliminates spindle slippage and takes the knuckle-busting out of tightening the spindle lock.
- Machined from select steel, then heat-treated for hardness and durability.
- The self-centering spindle provides perfect alignment every time.
- Tight tolerances in manufacturing mean tight groups in the field.
- Guaranteed to never break or wear out from normal use.

No one advances the art and science of reloading like Hornady. And, no one else can increase the pleasure of reloading like the engineers at Hornady. Performance, craftsmanship and a guarantee that lasts a lifetime.

 **Hornady**

Accurate. Deadly. Dependable.
