

Nosler
UP FRONT

SURVIVAL OF THE FLATTEST

The 30 caliber category has gotten crowded over the last hundred years, so we decided to add something more evolved into the population. Introducing the 30 Nosler, a 30 caliber round that fires a 210 gr. AccuBond® Long Range bullet at 3,000 fps from a standard length action.

It's survival of the flattest. And now we wait for the others to drop.

FLAT OUT. LIGHTS OUT.
